Bcc: Sally Thomas

Hi Michael and Tracie!

Your FY12 IGAP Special Project application is complete! I have approved your proposal and received your application forms. I will complete my funding recommendation and initiate internal processing next week. Electronic copies of your final approved application documents are attached here. Please save copies of these final documents for your records and delete all earlier drafts.

Please note that no new assistance agreement or award has been made yet. At any time during the processing of your application EPA R10's Grants Administration Unit or Office of Ecosystems Tribal and Public Affairs may require additional information or changes, choose to deny funding, or choose to withhold funding until a later date or until conditions have been met.

I will let you know if we need any additional information or changes. If and when an award is offered (sometime in the next few weeks), you will receive a new assistance agreement or amendment requiring an authorized tribal representative's original signature. If EPA receives the signed assistance agreement by the date specified, then the award will be made.

Congratulations and thank you again for all your work!
